

ENGLISH AND MATH BENCHMARKS

Test takers who meet both the Evidence-Based Reading and Writing (ERW) and Math benchmarks have a 75% chance of earning a course grade of C or higher in related first-semester, credit-bearing college courses.

Students who take a PSAT-related assessment and meet both benchmarks for their grade are on track to meet both SAT college and career readiness benchmarks.

Group	Number of Test Takers	Mean Total Score 240-1440 ?	Mean Evidence-based Reading and Writing Score 120-720 ?	Mean Math Score 120-720 ?

SCIENCE AND HISTORY BENCHMARKS

These component of the PSAT 8/9 focuses on the assessment of students' ability to apply reading, writing, language, and math skills to answer questions in science, history, and social studies contexts. This component is based on selected questions from the Reading Test, Writing and Language Test, and Math Test.

Native Hawaiian/Other Pacific Islander	1 / <1%	680	340	340

AP POTENTIAL

Schools should use AP Potential to identify and encourage students that may not otherwise be actively recruited for participation in AP, but that show a promise for succeeding in such courses. Thus, schools should start by generating a roster of students that have anywhere from a 60-100% likelihood of scoring 3 or higher. If the resulting list is larger than can be accommodated by a single section of an AP course, the school should consider adding sections and/or training additional teachers to offer the AP course.

AP Course	60% Potential	80% Potential
Art History	9	1
Biology	3	0
